Common Systems Group (CSG) Meeting

January 27, 2-4 p.m.
2121 Murphy

AGENDA

1) Library’s SAN Experience (David Leonian)

A CCC member requested information on how various campus units are addressing the need for large storage solutions. Earlier last year, the Library spent several months evaluating and eventually purchased a SAN. David Leonian will talk about their experience.

2) Wireless Standards Body Update (Peter Kovaric)

Some of the logistics for forming the Wireless Standards Body have been planned. Peter Kovaric will give an update for CSG approval.

3) Data Warehouse Campus Impact Analysis (Jim Davis)

Purpose is to make sure there are no additional issues that need to be analyzed.
